

DATASHEET TR-PSI52DC120W

TR-PSI52DC120W is an industrial power supply unit with all the necessary functions to provide stable power supply to your equipment. Compact size and design ensure easy installation and operation.

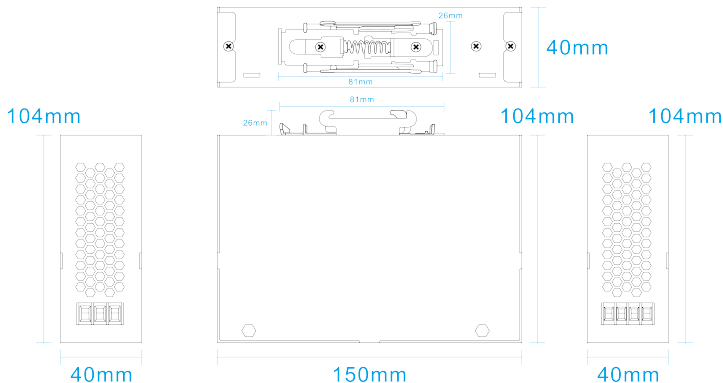

Basic equipment:

- Power supply unit 1pcs.
- Device datasheet 1pcs.

Specification:

Model	TR-PSI52DC120W
Output capacity	125W
Rated power	120W
Input voltage	AC 100-265V
Output voltage	DC 48-57V
Output current	2.5A
Operating current	2.5A
Average efficiency	88%
Protection and functions	Overvoltage protection Short-circuit protection Cold start
Material	Metal
Working temperature	-35°C...75°C
Weight, kg	GROSS: 0.66 NET: 0.52
Dimensions of the device (W x D x H), mm	40 x 104 x 150
Package dimensions (W x D x H), mm	57 x 135 x 175

Dimensions

Warranty service:

- Two years warranty service from the date of sale.
- In case of the warranty card absence, the warranty period is determined from the date of sale.
