

DATASHEET TR-PSI52DC240W

TR-PSI52DC240W is an industrial power supply unit with all the necessary functions to provide stable power supply to your equipment. Compact size and design ensure easy installation and operation.

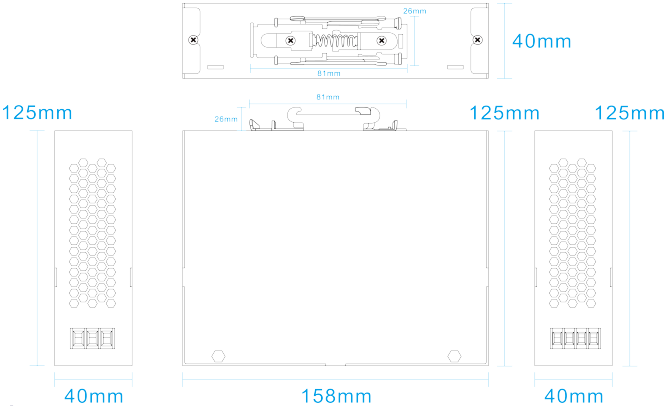

Basic equipment:

- Power supply unit 1pcs.
- Device datasheet 1pcs.

Specification:

Model	TR-PSI52DC240W
Output capacity	250W
Rated power	240W
Input voltage	AC 90-265V
Output voltage	DC 49-57V
Output current	4.7A
Operating current	4.7A
Average efficiency	91%
Protection and functions	Overvoltage protection Short-circuit protection Cold start
Material	Metal
Working temperature	-35°C...75°C
Weight, kg	GROSS: 0.78 NET: 0.69
Dimensions of the device (W x D x H), mm	40 x 125 x 158
Package dimensions (W x D x H), mm	57 x 160 x 183

Dimensions

Warranty service:

- Two years warranty service from the date of sale.
- In case of the warranty card absence, the warranty period is determined from the date of sale.
